25X1A9a 25X1A8a 25X1A8a 25X1A8a	and others that one of the most useful aids they have had in has been copies of branch contributions to D/A for NIE's. has received only a random few of these contributions, which are now outdated. Also routinely receives copies of the published NIE's and the ORR IP contribution to NIE's. These, however, do not provide the details that finds most useful in their support of field collection activities. They consider that the individual branch contributions to D/A represent the most recent branch estimates and narrative evaluations of individual economic
25X1A8a 25X1A8a	2. has asked, therefore, that if possible we provide them on a routine basis with copies of each branch NIE contribution on the SovBloc.
	unfinished nature of these papers and assures me that they would be used as background only and be available only to the ORR team in 25X1A8a
25X1A8a	3. I don't know whether this would require the branch making an additional carbon copy or not, but if we can meet request I feel it would be worthwhile. If you agree
25X1A6a	that this is worthwhile, the branches should be instructed to forward a copy of their contributions through St/C to me for pouching to the should be done at the time the branches forward their contributions to Analysis Division. This request, as I received it, pertained specifically to the major annual NIE's on the USSR and the Satellites.
